

CAMPAGNOLA EASY L ELECTRONIC PRUNER

Powerful and quick, the Easy L electric scissor is part of the new Line 44. With a cutting capacity of 36 mm it is recommended for vineyards of all kinds, orchards, citrus and ornamental trees. Its excellent cutting capacity allows the pruning of any type of wood. The battery supplied guarantees the autonomy of an entire day of work. The entire Line 44 can be connected to the same battery, ie Easy S and Easy L electric shears with direct handgrip, Easy 80 and Easy 150 electric shears with extension pole and Linker electric tying tool.
